1. On 31 October, members of RMS and representatives of CIAP and GDIP Program Managers came to final agreement on the production enhancement initiatives to be funded for FY 1982-83 (Attachment 1). The selections were made on the basis of our interpretation of the guidelines established by the DCI on 7 August 1979 (Attachment 2). [Redacted]

4. The panel also has several recommendations to make regarding the FY 1983-84 selection process. They are as follows:

a. enhancement initiatives ought to be submitted by 1 July 1981 and selected by 1 August. The extension granted in 1980 did not result in a significant number of additional submissions, and the timing of the selection process was very inopportune;

b. Program Managers should exchange enhancement initiatives among themselves for review and possible joint sponsorship prior to the submission deadline;

c. RMS should provide Program Managers with a multiattribute utility matrix at the earliest possible date, but no later than the time the program call is issued. A decision matrix would provide the Community with better insight into the spirit of the enhancement initiative program as well as provide the selection panel with more objective criteria by which to select from among the submissions;

d. those production enhancement initiatives to be funded should accompany, but not be ranked with, the program submissions in each of the two years for which they have been approved. 

5. The necessary correspondence is attached (Attachment 3) for your signature should you concur with our selections.
